

DuraTrack[®]

DOZER 2020

Astrak are the UK's No. 1 supplier of undercarriage and wear parts.

Astrak have worked tirelessly over the past several years to create the definitive, quality, cost effective undercarriage solution for our customers. This range is called DuraTrack.

DuraTrack is completely interchangeable with all major brands such as CAT, Komatsu, Liebherr, Hitachi and JCB but at a more cost effective price.

DuraTrack undercarriages come with a comprehensive 3 year, 3000 hour warranty which underlines our confidence in the range to meet or exceed the performance of other manufacturer's undercarriages.

On-Site fitting to reduce downtime

- Save on transport costs
- Less downtime

3 year, 3000 hour warranty - not a pro rata assurance like other suppliers

Over £8m worth of undercarriage and GET stock available in the UK alone

Transport and delivery options to fit tight deadlines

Product specialists with the right tooling to do the job correctly

Exceptional customer service - every step of the way

Long-standing relationships with OEM manufacturers and suppliers

Pre-assembled track groups in stock for popular models to minimise customer/ dozer down-time

**From track shoes to chains, idlers to rollers,
Astrak has got you covered. Every product is
proven to perform in the toughest conditions.
Put them to the test. You won't be disappointed.**

Track Shoes/Groups

We stock a full range of single grouser track shoes in all standards widths from 22" (560mm) to 36" (915mm) to meet every requirement. All dozer track shoes have heavy duty baseplates to increase service life.

Track Chains

Astrak stock a range of sealed and lubricated track (SALT) chains with oil filled lubricant which reduces internal friction and extends wear life.

Idlers

All idlers are available from stock to fit all makes and models of Dozers come complete with heavy duty seal groups, shafts and brackets.

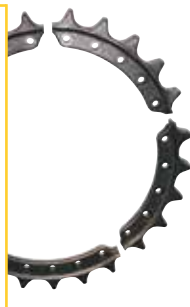

Rollers

Astrak provide a wide range of heavy duty top rollers / carrier rollers / bottom rollers and track rollers.

Sprockets

Our sprockets are made from quality cast steel with the external tooth profiles deep induction hardened for maximum durability. Sprocket segments are forged and thoroughly hardened for extended wear life.

Bolt-On Edges

All bolt on blades are through-hardened to 500HB to ensure maximum performance in the most demanding environments.
